Computer Science A*

Yorston Lodge Primary School, Knutsford, Cheshire, WA16 0DP
Sept 2005 – July 2012

Work Experience/Previous Employment

Price Waterhouse Coopers

September 2019 – Present

Athene Communications Limited

August 2018

Work experience with a small PR and communications consultancy. I worked across a number of their teams and in particular was involved in the research and review of

their website, suggesting improvements. I also collated a photograph album for a client and produced databases of potential information sources.

Multiple Online Games Companies

June 2016 – Present

Through the expansion of my Java knowledge, I started to develop game add-ons for Minecraft servers. I would work for companies, going through their requirements of add-ons and then completing the work to the highest quality possible within the deadline provided. The key factors I had to ensure were:

- Time keeping to ensure it was ready on time.
- Accuracy as any slight error could have a major consequence
- Efficiency of code to keep the servers running as smoothly as possible
- Communication skills to ensure what I produced reached the demands of the client perfectly.

Volunteer work

Sue Ryder Charity Shop, Holmes Chapel

Assistant –Dec 2014- April 2016

I really enjoyed my time with this team and worked mainly at weekends and during school holidays. I looked after the books and DVD area where I was responsible for making sure that the stock was turned around with the new deliveries. I had to ensure that old stock was removed from the shelves and then I would find the best price on-line for items which had not sold.

Additional skills

Grade 3 Oboe

Silver Duke of Edinburgh Award

Other interests

I am a keen golfer. I also enjoy learning new computer programming languages in my spare time and I also enjoy reading.

I hold a full UK driving licence
